3/8 x 24 threaded male to UHF female Adapter

Technical Data Sheet

This 3/8 x 24 threaded male to UHF female adapter is one of several thousand RF products available from Max-Gain Systems, Inc. This adapter is a between series coaxial adapter.

This adapter is made from a Solid Brass body that is precision machined and plated with Nickel for superior performance and value. This 3/8 x 24 threaded male to UHF female adapter has a PTFE dielectric and a gold plated brass center pin. The UHF female side (also known as a SO-239 connection) is by far the most popular connection type used in Amateur Radio. The 3/8 x 24 male is most widely used in both mobile and permanent antenna mount applications.
