Type N female to Type C male Adapter

Technical Data Sheet

This Type N female to Type C male adapter is one of several thousand RF products available from Max-Gain Systems, Inc. This adapter is a between series coaxial adapter.

This adapter is made from a Solid Brass body that is precision machined and plated with Silver for superior performance and value. The Type N female side accepts a N male which contains a gasket, for shock- / vibration- resistant and waterproof connections. This C male to BNC female adapter has a PTFE dielectric and a gold plated brass center pin. The C male side accepts the C female tabs or “bayonets” for quick and reliable connections and disconnections - very similar to a BNC connection, but at the same size and attributes as a type N connection.
