

## PRODUCT SPECIFICATIONS

CVCJ-1000

| Model Number | Capacitance range(pF) | Peak Test Voltage(kV) | RF Peak Working Voltage(kV) | Maximum RF Current(RMS) | Nominal Dimensions |                   | Maximum Operating Torque (N·m) | Rotation turns | Maximum Weight (kg/lb) |
|--------------|-----------------------|-----------------------|-----------------------------|-------------------------|--------------------|-------------------|--------------------------------|----------------|------------------------|
|              |                       |                       |                             |                         | Length(mm)/(in)    | Diameter(mm)/(in) |                                |                |                        |
| CVCJ-1000-3S | 7-1000                | 3                     | 1.8                         | 60                      | 192/7.5            | 77.98/3.07        | 0.2                            | 27             | 1.2/2.75               |
| CVCJ-1000-5S | 7-1000                | 5                     | 3                           | 70                      | 192/7.5            | 77.98/3.07        | 0.2                            | 27             | 1.2/2.75               |
